

Private Domain 194 Thank you my dearest Nientje

Dearest Nientje, Life without you is not easy. It's terribly lonely and I have to cry all the time. I have been to the beautiful grave many times and laid roses and tulips there.

Through the grief, I am also very grateful that I was able to live with you. Our life and love has grown during our lifetime. What a fantastic life we had. You have done so well with your studies, work and your children and your unconditional love for me. You are an enduring example.

You know I even miss the thorns, I would like to get some scratches to make up for it. I see you sitting here on the bench while the sun caresses you, with a book, a nice cup of coffee that I bring you, the kisses that I give you but sometimes I have forgotten to give.

And what a beautiful gift you gave me on your birthday by sending red roses into the conifer.

You are now in the astral world. Do you remember how many books I read about it in the late 80s and early 90s. You immersed yourself in acupuncture with all those energy fields in our body.

Everything is energy, our whole body connected to the universe. I send my love to you and fervently hope, as I told you once, that we will meet again and work together on something very beautiful in the near futur.
